EDUCATION

- **Jaypee Institute of Information Technology** Noida, India
B.Tech – Computer Science & Engineering — CGPA: 8.1 / 10 2024 – 2028
- **Delhi Public School** Hapur, India
PCM — 96.2% 2024

SKILLS

- **Languages:** C, C++, Python
- **Web:** HTML, CSS, JavaScript, React, Node.js
- **ML / Data:** Pandas, Scikit-learn, TensorFlow, Data Cleaning, Feature Engineering, Visualization
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Flask, Pygame, Unity
- **Core:** OOP, DBMS, Data Structures & Algorithms

PROJECTS

- **EcoWell – AQI Prediction Platform**
Python, Scikit-learn, Pandas, REST APIs, HTML/CSS/JS — GitHub
 - Built end-to-end ML pipeline: web scraping → data cleaning → feature engineering → model training
 - Trained AQI prediction model achieving **76% accuracy**; evaluated using precision, recall, and performance metrics
 - Integrated real-time AQI REST API for live environmental data display on frontend
 - Designed 5-page frontend covering AQI trends, policy insights, visualization analytics, and contact
- **Chess Position Analyzer**
Python, Pygame, Flask — GitHub
 - Built interactive chess board with drag-and-drop piece movement and preset position loading
 - Implemented and benchmarked Minimax, Alpha-Beta Pruning, and Greedy algorithms for move evaluation
 - Compared algorithms on execution time and decision efficiency; Alpha-Beta showed fastest response under depth constraints

EXPERIENCE

- **IEEE Student Branch IIIT – TechBlocks** Noida, India
Mentor / Volunteer Jan 2025
 - Selected through competitive interview for mentoring role in 5-day flagship technical bootcamp
 - Taught CSS & Tailwind CSS fundamentals to 92+ first-year students across live sessions
 - Conducted doubt-solving sessions and guided hands-on project-based learning

ACHIEVEMENTS & CERTIFICATIONS

- **IEEE SB IIIT – 1st Student Conference Research Forum (SRF 2026)**
Abstract on Cryptography selected for poster presentation at IEEE SB IIIT's inaugural research conference (Jan–Feb 2026)
- **Data Structures & Algorithms – Coding Blocks**
Completed structured DSA course covering complexity analysis, recursion, and core problem-solving patterns
- **Artificial Intelligence & Machine Learning – OneStop**
Covered AI agents, NLP basics, CNN, ANN architecture, and backpropagation
